Sup -

I swiped this
cable off your desk.
before you saw
it.

I have dug out
all the info needed
and given it to

25X1A

 WH.

No more action
needed

[REDACTED] WH Log - 5920 or 7282, has cable from [REDACTED] requesting pump tank, and float control. I couldn't get copy for retention but abstracted pertinent part as follows:

Para 3 - - - - - "a $\frac{1}{2}$ to $\frac{3}{4}$ hp water pump with 50 gal or larger pressure tank with float control for cistern water turn off".

I have asked Max to cable back for more info: pump, tank, and cistern arrangement? Head? GPM? Suction lift? Flow rate from tank? Tank pressure? Where float control goes? Meaning of "cistern water turn off"?

When answer comes in, see if you can recommend what is wanted. Stuff is supposed to go out on a plane Mon. morning.
